

COAL AGE

With Which Is Consolidated
The "Colliery Engineer" and "Mines and Minerals"

INDEX TO VOLUME 46

January to December, 1941

NOTE—The articles and references in this index have been classified under leading subjects or topics, as far as practicable, and should be sought under such heads, which, together with all unclassified matter, are arranged alphabetically. Illustrated articles, or cuts standing by themselves are indicated by an asterisk (*). The subject matter of editorials will be found classified under the subject with which they deal and marked (e). Many titles of articles are abbreviated, the aim being to give prominence to important words.

A

Accidents

Accident frequency rate for haulage is 220, C. L. Lutton, Aug.....	56
Acmar mine blast kills eleven, Aug....	91
Beckley blast kills seven, Jan.....	90
Bicknell explosion report, July.....	96
Carswell mine explosion, Feb.....	130
15 die in Kentucky mine blast, Nov....	82
How to classify this accident? Sept....	61
Indiana mine blast kills 14, June.....	106
Kent mine explosion kills 7, Aug.....	90
Koppers Co. cleared in Carswell blast, Apr.....	117
Major causes of coal-mine injuries and preventive measures, Dec.....	76
Monthly fatalities..... Jan. 104	
Feb. 130, Mar. 109, Apr. 131, May 98,	
June 114, July 96, Aug. 96, Sept. 91,	
Oct. 175, Nov. 100, Dec.....	118
Nelms explosion kills 31, Jan.....	*96
Nelms disaster report—Bureau of Mines, Feb.....	117
1940 statistics on accidents. R. R. Sayers, Feb.....	*69
Raleigh Coal & Coke accident investigation, Mar.....	90
Secretary of N.C.A. depllores federal mine inspection bill, Mar.....	90
Seven men killed at United Electric plant, Mar.....	94
Sonman blast laid to lax safety measures, Jan.....	98
Tennessee Coal, Iron & Railroad Co. blast, July.....	96

American Chemical Society

Division of Gas & Fuel Chemistry meeting, Oct.....	163
--	-----

American Coal Foundation

Offers cooperative plan for promoting solid-fuel uses, Oct.....	141
---	-----

American Institute of Mining & Metallurgical Engineers

Anthracite Division meeting, June.....	108
Coal Division meeting, Mar.....	82
Coal Division and Central Appalachian Section meets at White Sulphur Springs, Aug.....	*78
Coal Division and Fuels Division of A.S.M.E. meeting, Dec.....	102
Election of officers, Dec.....	106
Nominations for officers, July.....	87
Pennsylvania Anthracite Section meets at Hazleton, Pa. Aug.....	92
Report of New York meeting, Mar.....	81
Why not a coal man for president? Ware, Bucky, Apr.....	134

American Mining Congress

Awards for operating kinks at Cincinnati convention, June.....	*83
Cincinnati—and the job that's ahead, G. B. Harrington, Apr.....	*65
Cincinnati Show exhibitors, Apr.....	67
Coal Division meeting at Pittsburgh, Dec.....	124
18th annual exposition of mining equipment of the American Mining Congress, June.....	*55
Meeting in Washington, D. C., Mar.....	100
Report of Cincinnati meeting, June.....	*37
Correction, July.....	94

American Society for Testing Materials

Adoption of standards favored at meeting of Committee D-5, Apr.....	132
Standards supplement issued for 1940, Apr.....	138

American Society of Mechanical Engineer

Fuels Division and Coal Division of A.I.M.E. meeting, Dec.....	102
--	-----

Anthracite

Anthracite burner standard issued, May.....	89
Anthracite Industries Laboratory granted priority rating, Nov.....	76
Average annual U. S. sales of anthracite in 1931-40 (table), May.....	86
Bootleg ordinance ruled void by New York magistrate, Feb.....	108
Bootleg situation considered by anthracite engineers, Aug.....	92
Bootleg output being bought by anthracite operators, June.....	114
Rootlegging to be ended by plan, Mar.....	86
Financial status of anthracite industry is improved in 1940. L. C. Madeira, III, Feb.....	*57
Future of anthracite lies in men and divorce from traditions. J. B. Warren, Apr.....	*90
Gas manufactured from anthracite, June.....	115
1940 statistics for coal consumption and production, Feb.....	*43
Output control bill signed by governor, Aug.....	90
Output wanes, Aug.....	96
Price ceiling for anthracite is set, then revoked by Henderson, Oct.....	148
Production by months..... Jan. 78, Feb. 110, Mar. 86, Apr. 106, May 80, June 90, July 85, Aug. 72, Sept. 74, Oct. 142, Nov. 73, Dec.....	104
Technical Advisory Board to promote utilization, May.....	93
Uptrend in anthracite prices studied by OPACS, Aug.....	89
Wage fight settled, June.....	*89
Anthracite Conference of Lehigh University, June.....	*71

B

Barge Shipping

Trolley limits barge drift at tippie on Kanawha, Apr.....	*102
---	------

Battelle Memorial Institute

Laboratory facilities being expanded, May 97, Aug.....?	89
---	----

Big Sandy Elkhorn Coal Mining Institute

Election of officers, Apr.....	112
Pikesville, Ky. meeting, Apr.....	*112

Bituminous Coal

Appalachian bituminous conference in New York, Apr.....	*118
Appalachian wage contract signed by Southern operators, July 71, Aug.....	67
Appalachian wage controversy ended with \$1 wage rise; to dickler on differential in South, May.....	77
Consumption by months, Jan. 78, Feb. 110, Mar. 86, Apr. 106, May 80, June 90, July 85, Aug. 72, Sept. 74, ct. 142, Nov. 73, Dec.....	108
Forecasting demands for coal, Aug. (e) Future outlook for bituminous mining. Eugene McAuliffe, Apr.....	*88
Hearing on costs of producing bituminous coal in Washington, June.....	113
Index numbers for bituminous coal production, Aug.....	68
Maximum prices, Aug. (e).....	36
1940 shows improved practices in bituminous mines, Feb.....	*62
1940 statistics for coal consumption and production, Feb.....	*43
Production by month, Jan. 78, Feb. 110, Mar. 86, Apr. 106, May 80, June 90, July 85, Aug. 72, Sept. 74, Oct. 142, Nov. 73, Dec.....	104
Southern and union soft-coal men deadlocked, June.....	89
Stocks by months, Jan. 78, Feb. 110, Mar. 86, Apr. 106, May 80, June 90, July 85, Aug. 72, Sept. 74, Oct. 142, Nov. 73, Dec.....	104

Bituminous Coal Consumers' Counsel

Petitions for maximum coal prices, Aug.....	86
Warns against runaway prices, Aug.....	89

Bituminous Coal Division

Changes in weighted average costs, (table), May.....	78
Code memberships revoked, Nov.....	73
Code violations considered, Oct.....	153

Employees' representatives named by U.M.W., Aug.....	93
Guffey-Vinson Act is working smoothly, Jan.....	77
Hearing on price ceiling under way, Oct.....	158
Hearing on proposal for maximum coal prices to be held, Sept.....	71
Maximum coal prices petitioned for by Consumers' Counsel, Aug.....	86
Maximum price hearing proceeds, Nov.....	73
Moves to abolish abuses, Dec.....	120
President asks Congress for operating funds, May.....	82
Refuses relaxing of agency regulations, Aug.....	88

Bituminous Coal Research, Inc.

Leaders in coal research meet at Battelle, May.....	*84
Stove makers support research to improve coal heating, Sept.....	88
Technical advisory board meets at Battelle Institute, Apr.....	*110

Blasting

Receptacles in which shotfirers and miners can carry explosives into coal mines, Oct.....	124
Safety shooting reel requires use of connection key, Jan.....	*69
Sheathed explosives reported on by British Research Board, Sept.....	*76

Briquets

Production of coke briquets and packaged fuel gains, July.....	94
Texas lignite mine develops method of briquetting, Nov.....	*51

Bureau of Mines

Civil service test to be held for federal mine inspectors, Aug.....	92
Consulting group named on mine inspection, Sept.....	81
Permissible plates issued..... Jan. 97, Feb. 112, Mar. 100, Apr. 132, May 98, June 113, July 86, Aug. 86, Sept. 81, Nov. 82, Dec.....	119
Safety decisions by the U. S. Bureau of Mines Safety Board, Dec.....	70

C

Canada's coal mines listed as essential services, July.....	95
Canadian miners cost-of-living bonus boosted, Nov.....	89

Canadian Institute of Mining & Metallurgy

Edmonton meeting, Nov.....	*95
----------------------------	-----

Central Pennsylvania Safety Association

Holds banquet, Jan.....	94
-------------------------	----

Central West Virginia Coal Mining Institute

Webster Springs, W. Va. meeting, Nov.....	*76
Check transfer with tilting carrier, Jan.....	*74

Coal

Buried coal comes in handy during coal mine stoppage, May.....	94
Coke production soars with defense program, Mar.....	94
Difference between gross and net heating values of fuels (meeting of chemists), May.....	86
Franklin County, Ill. pays tribute to Old King Coal, Nov.....	*99
Fuels shortage discussed at A.I.M.E. meeting, Aug.....	78
Hydrogenation, oxidation, coking and coal analysis discussed by American Chemical Society, Oct.....	163
1940 statistics for coal consumption and production, Feb.....	*43
Research in progress or completed in 1940 or planned for 1941, Feb.....	*86
Resents belittling coal industry, Apr.....	134
Types of coal wants analyzed and their extent estimated. A. Nelson, Aug....	*47

Coal Mining Institute of America

Election of officers, Jan.....	99
Report of Pittsburgh meeting, Jan.....	98

Code

Bituminous Coal Division revokes certain code memberships, Nov.....	73
---	----

Conveyors

- Avella, Pa. mine controls draw slate by conveyor loading and systematic timbering. Claude Ferguson, Mar. *47
- High Point mine doubles tons per man with conveyors. George Henderson, Jan. *39
- Michigan thin-seam mine effectively pioneers conveyorization. Charles Lambur, Jr., Sept. *46
- Overload protection for power distribution system prevents costly delays in conveyor mining. H. P. Chandler, May *57

D**Defense**

- Gould, G. B. named as advisory consultant on coal prices in Fuel Section. Aug. 89, Sept. *79
- Ikkes named Coal Coordinator; Gray made Acting Director, Dec. *108
- Mineral economists sought by the government, July 99
- OPACS studies uprend in anthracite prices, Aug. 89
- Pipe line planned to cut oil shortage, Sept. 79
- Service men essential to defense work may be released, July 97
- Storage of coal reserves urged by advisory commission, July 99
- United Mine Workers to raise defense fund, Aug. 90

Drainage

- Eastern Ohio No. 8 field, Oct. *81
- Efficiency of propeller pumps affected by sump clearance, Sept. 61
- Keep water out of mine, but, should it enter, get it out again as fast as possible, June 78
- Test hole which leaked gas grouted from coal bed, Jan. *69
- Water acid eats out pumps and mains, Sept. 61

Drills and Drilling

- Diamond core drill fittings standard revised, July 99

E**Eastern Ohio Coal Mining Institute**

- Bellaire, Ohio meeting, July. *88

Economics

- Fuels shortage discussed at A.I.M.E. meeting, Aug. 78
- Oil boom in Illinois, Aug. 80
- Pipe line ruled against by S.P.A.B., Dec. 134
- Pipe line planned to cut oil shortage, Sept. 79
- Proposed pipeline for oil, Sept. (e) 36
- St. Lawrence project again attacked by National Coal Association, Jan. 96
- St. Lawrence project called "tragic blunder" by secretary of National Coal Association, Feb. 124
- St. Lawrence project unsound, director of Anthracite Institute says, Feb. 115

Electricity

- Beware all electrical currents for almost none are safe, July. 61
- Cable hangers made of old belt, Apr. *104
- Cable protected by rubber-belted cushion, Oct. *130
- Cables purchased in sections with terminals soldered on, Oct. *129
- Carbon brushes discussed at Southern Illinois Mining Electrical Group, Mar. 98
- Charging equipment installed on battery locomotives, Apr. *100
- Chief mine electricians' examination, Pennsylvania, 1940, Apr. 97, May 67, June 81, July. 63
- Collector-ring assembly altered to improve shovel, July. *65
- Control board installed with more room in back, Oct. *129
- Driving of ground rods eased by hammer and anvil unit, Nov. *67
- Eastern Ohio No. 8 field electric stripping power and maintenance, Oct. *106
- Electrical power output, Jan. 78, Feb. 119, Mar. 86, Apr. 106, May 78, June 90, July 85, Aug. 72, Sept. 74, Oct. 142, Nov. 73, Dec. 104
- Electrolytic corrosion stopped with dry-disk rectifier, June. 86
- Emergency heater for water tank made from strip units, Mar. 74
- Fibrous glass insulation discussed at A.I.E.G. meeting, Mar. 92
- Five thousand volt cables terminate in conduit fittings, Aug. *64
- Good secondary mine voltage, F. W. Richart, Sept. 60
- Grounded gearmotor at Dun Glen No. 11, Oct. *138
- Grounding practices in coal mines outlined and analyzed, P. M. Barlow, July 54
- Hoist motor cooled with filtered air, May *72
- Improving low power factor helps to reduce mine operating cost, F. W. Richart, Dec. *55

- Insulators made of discarded pump valves, Jan. 74
- Less copper is installed yet line loss is lower, Sept. *66
- Loading efficiency is promoted by maintaining good voltage, Apr. 62
- Metering for second mine based on house units, June. *86
- Motor characteristics discussed by Southern Illinois Electrical Group, Jan. 92
- Overload protection for power distribution system prevents costly delays in conveyor mining. H. P. Chandler, May *57
- Power factor, F. W. Richart, Nov. *48
- Power supply and maintenance practices continue to improve, Feb. *77
- Pumping units facilitate movement of transformers, May *70
- "Radio" sets provide mine communication via trolley at Cliff mine, I. A. Given, Jan. *52
- Rail-bond losses, Nov. 74
- Resistance welding lessens shaking pan repairs at Hudson Coal, Jan. *55
- Safety device for electric switch designed to prevent burns, Feb. *98
- Safety fused junction box for mechanical mining, Nov. *72
- Safety shooting reel requires use of connection key, Jan. *69
- Shovel cable handling eased by skid, Oct. *134
- Shovel-dipper electric heating units cut wintertime losses, J. W. Bullington, Sept. *53
- Single-conductor cables used on cutters and drills, Mar. 78
- Solenoid on oil switch, Dec. *94
- Spiral commutator grooves improved maintenance, Jan. *72
- Substations, portable, used by Southern Illinois mines, Aug. *61
- Transformer movement facilitated by pumping unit, May. *70
- Trip-length communication makes for safety, Feb. *106

Electrification

- Eastern Ohio No. 8 field, Oct. *85
- Engineering Index ready, Aug. 72

Engineers

- Examination questions, steam hoisting engineers, Illinois, 1940, Mar. 70
- Hudson job training embraces both supervisors and workers. Cadwallader Evans, Jr., Apr. *79
- Industrial machinery men needed by OPA, Dec. 107
- Industry and schools must build men for leadership in ideas, P. B. Bucky, Apr. *92
- Job-training survey shows few mines with comprehensive plans, Apr. *75
- Mining-school survey shows coal still in student doghouse, Apr. 68
- Summer courses broaden economic horizons of mine officials, H. E. Nold, Apr. *73
- What can schools and industry do to arouse student interest? D. L. McElroy, Apr. *71

Examinations

- Anthracite foremen and assistants examination, Oct. 126, Nov. 64
- Chief mine electricians' examination, Pennsylvania, 1940, Apr. 97, May 67, June 81, July. 63
- Civil service test announced for coal examiners, May 80
- First and second class foremen examination held in state of Ohio, Aug. 58, Sept. *62, Oct. 126, Nov. 64
- First class mine manager's examination, Illinois, 1940, Mar. 70, Apr. 96, May 66, June 81, Aug. 49
- First class mine manager's examination, Pennsylvania, Apr. 4, 1939, Jan. 66, Feb. 96
- Mine examiners' examination, Illinois, 1940, June 80, July 63, Sept. 63, Nov. 65
- Mine foremen's examination, bituminous, Pennsylvania, 1941, Sept. 63, Nov. 71
- Mine foremen's examination, Iowa, June 11-12, 1940, Jan. 67, Feb. 96, Mar. 59
- Mine foremen's examination, Pennsylvania, Apr. 8, 1941, July 62, Aug. 59
- Questions asked applicants for second class mine managers' certificates, Illinois, 1940, May 66, June. 80
- Questions, first class mine managers' examination, Illinois, 1940, Feb. 97
- Steam hoisting engineers, Illinois, 1940, Jan. 66, Feb. 97, Mar. 70

F**Face Preparation**

- Eastern Ohio No. 8 field, Oct. *72
- Loading efficiency depends on what happens before and after machine moves the coal, Apr. 59
- 15th Bituminous District of Pennsylvania—28th mining institute, Jan. 78

Foremen

- Anthracite foremen and assistants examination, Oct. 126, Nov. 64
- Examination for first and second class foremen, Ohio, Nov. 64
- Examination questions, mine foremen, Pennsylvania, Apr. 8, 1941, July. 62

- Face boss has key position in mechanized bituminous mining. J. R. Foster, Apr. *81
- First and second class foremen examination held in state of Ohio, Aug. 58, Sept. *62, Oct. 126
- First grade mine foremen's examination—Pennsylvania, Apr. 4, 1939, Jan. 66, Feb. 96
- How intake air is filled with methane by falls of barometer or rock, Oct. 125
- Pennsylvania, 1941, Sept. 63, Nov. 65
- Mine foremen's examination, Iowa, June 11-12, 1940, Jan. 67, Feb. 96, Mar. 71
- Mine foremen's examination questions, Pennsylvania, Apr. 8, 1941, Aug. 59
- Question on air moved and power needed, Oct. 124
- Receptacles in which shotfired and miners can carry explosives into coal mines, Oct. 124
- Summer courses broaden economic horizons of mine officials. H. E. Nold, Apr. *73

Freight Rates

- Anthracite producers attack rate structure, Mar. 104
- First shipment of Illinois coal to lakes via Chicago docks under new rate, Aug. *70
- National Defense Advisory Commission advises on car policy, June. 90
- Seaboard Air Line Ry. wins fight against price fixing provisions, Apr. 117
- West Kentucky wins decision in rate controversy, Mar. 103

Fuel

- Breakdown of mineral-raw-material production 1937 (chart), June. 73

G

- Gas manufactured from anthracite, June. 115

Great Britain

- Coal Mines Act is revised, Sept. 78
- Great Britain Research Board reports on rock-ducting, roof support, haulage, Sept. 74

H**Harlan Mining Institute**

- Observes anniversary of inception of mining, Sept. 81

Hoisting

- Starting point in drum reeving indicated by closed fist, May. *69

I**Illinois Coal Preparation Engineers & Chemists**

- Desoto, Ill. meeting, Dec. *134

Illinois Mining Institute

- Boat trip meeting, July. *82
- Election of officers, Dec. 113
- Report of meeting, Dec. *110

Illinois Society of Coal Preparation Engineers & Chemists

- Discusses crushing in coal preparation, Oct. 156
- Herrin, Ill. meeting, June. 114

Indiana Coal Mining Institute

- Election of officers, Jan. 82
- Report of Evansville meeting, June. 90
- Report of Terre Haute meeting, Jan. *82

L**Labor**

- Advanced training course for Illinois mine examiners, Aug. *78
- Alabama strike settled on basis of mediation board findings, Nov. 73
- Anthracite wage fight settled, June. *89
- Anthracite's future lies in men and divorce from traditions. J. B. Warriner, Apr. *90
- Appalachian bituminous conference in New York, Apr. *118
- Appalachian wage agreement is a triumph for organization, June (e) 36
- Appalachian wage contract signed by Southern operators, Aug. 67
- Appalachian wage controversy ended with \$1 wage rise; to dicker on differential in South, May. 77
- Appalachian wage controversy settled by Southern bituminous coal operators, July. *71
- Better trained personnel needed for modern coal mining. J. B. Morrow, Apr. *55
- British Columbia workers to receive war bonus, Mar. (e) 37
- Canadian miners given bonus, Feb. 123
- Captive miners awarded unemployment pay, Apr. 126
- Captive mine walkout ended when Lewis accepts Roosevelt arbitration plan, Dec. *101
- Captive-mine strike called off by Lewis, Nov. 98
- Captive mine strike truce, Oct. *154

M

Captive miners to receive unemployment relief? Mar.....	108	Combating hazards connected with mine mechanization. B. J. F. Conrad, Nov.....	62
Cost-of-living bonus boosted for Canadian miners, Nov.....	89	Conveyor loading in Avella, Pa. holds drawslate and reduces operating costs. Claude Ferguson, Mar.....	47
Director of Selective Service seeks help in finding jobs for discharged draftees, Oct.....	150	Conveyor mining for thin-seam mine ups output. Charles Lambur, Jr., Sept.....	46
Face boss has key position in mechanized bituminous mining. J. R. Foster, Apr.....	*81	Conveyors with hydraulic breakers feature Washington shaft mine. I. A. Given, May.....	*59
Fitting the worker to the job. O. G. Van Campen, Nov.....	45	Eastern Ohio No. 8 field shaker-conveyor mining, Oct.....	*65
Hudson job training embraces both supervisors and workers. Cadwallader Evans, Jr., Apr.....	*79	Face boss has key position in mechanized bituminous mining. J. R. Foster, Apr.....	*81
Illinois governor urges peace, Feb.....	*120	Hazards incidental to mechanical loading discussed by Inspectors at Bluefield, July.....	74
Industry and schools must build men for leadership in ideas. P. B. Bucky, Apr.....	*92	High-capacity track-mounted loading machines at Little Betty. I. A. Given, July.....	*37
Job analysis fundamental in successful job-training program. O. G. Van Campen, Sept.....	*43	High Point mine doubles tons per man with conveyors. George Henderson, Jan.....	*39
Job-training survey shows few mines with comprehensive plans, Apr.....	75	Loader and shuttle cars produce 13 tons per man from pillars, Industrial mine. I. A. Given, Aug.....	*51
Man power: not only hands, but heads are needed—A.M.C., June.....	42	Loader-conveyor slope delivers to washer at North Diamond. J. H. Edwards, July.....	*40
Management should make a full-time study of facts and figures on wages, Aug. (e).....	35	Loader sales and cleaning capacity up, conveyors at new high in 1940. W. H. Young & others, Feb.....	*59
Organization morale. O. G. Van Campen, Aug.....	*37	Loading efficiency depends on what happens before and after machine moves the coal, Apr.....	59
Out-of-work benefits denied to employees of Tennessee Coal, Iron & Railroad Co., July.....	94	Loading machine and shuttle-car data for West Virginia Mines (A.I.M.E.) meeting, Mar.....	81
Payroll record keeping revised by Wage & Hour Division, Oct.....	160	Loading machines mine selectively at Sayreton, Ala. I. A. Given, Mar.....	*39
Portal to portal workday for metal miners is opinion by U. S. Labor Department, Apr.....	106	Loading—percentage of man-hours employed in loading, auxiliary operations and supervision (table), A.M.C., June.....	40
Proper training of mine workers promotes safety and efficiency. O. G. Van Campen, Dec.....	*52	Mining with mobile loaders, Eastern Ohio No. 8 field, Oct.....	*60
Recreation camp for children of Koppers mine employees opens, July.....	89	Missouri shaft mine modernizes to meet market demands. Charles Lambur, Jr., Jan.....	*48
Southern and union soft-coal men deadlocked, June.....	89	One loader and one shuttle car equals fifteen tons per miner at Brophy mine, July.....	*56
Southern Coal Producers organize for separate bargaining, Nov. 78, correction, Dec.....	127	Scooters serve loading machines in thin coal at Bergoo mine. J. H. Edwards, May.....	*52
Summer courses broaden economic horizons of mine officials. H. E. Nold, Apr.....	*73	Shuttle cars and bigger loaders increase tonnage at Monarch mine. Shott & Bottomley, May.....	*39
Training men for mechanical mining is discussed by Coal Mining Institute, Jan.....	98	Thin-seam Oklahoma mine increases output with modern equipment. Gene Taylor, Sept.....	*37
Tri-County Operators sign contract with United Mine Workers, Aug.....	90	Time-study survey highspots value of effective coordination, Apr.....	57
Unemployment awards to idle Colorado miners fought by the Security Bureau, Sept.....	82	Training men for mechanical mining is discussed by Coal Mining Institute, Jan.....	98
Unemployment benefits denied Colorado miners idle during wage negotiations, Aug.....	86	What 1940-41 has taught us about mechanical mining—A.M.C., June.....	39
Unemployment benefits for 1939 work suspension refused by Ohio Supreme Court, Aug.....	92		
Unemployment pay awarded captive miners, Apr.....	126	Merchandising	
Unemployment pay claim for time lost during wage negotiations in Kentucky, refused by Court, Nov.....	86	Anthracite burner standard issued, May Dickson Coal Co. to market Link-Belt stokers, June.....	117
Unemployment pay denied miners by West Virginia Supreme Court, Dec.....	114	Draw-off and standby test of hot-water heater, June.....	77
Virginia men receive mining certificates, Jan.....	105	Heaters burn high-volatile coal without smoke, Apr.....	137
Wage-hour ruling revised, July.....	91	Middle States Fuels forms fuels division, Feb.....	120
Wage increases recommended for Nova Scotia mines, Apr.....	126	N.C.A. promotion plan is considered at regional meetings, Jan.....	80
		Ohio truck mine electrifies and boosts sales by advertising. J. H. Edwards, Mar.....	*62
Law and Legislation		Production of coke, briquets and packaged fuel gains, July.....	94
Anti-bootleg law sustained, Mar.....	88	Trademarks to identify coal shipments, Feb.....	*85
Bituminous Coal Act of 1937 extension favored by advisory committee, Mar.....	94	West Virginia Mining Institute turns attention to sales relations, July.....	92
Bituminous Coal Conservation Act to be extended for two years, Apr.....	106		
Coal and labor funds approved, Aug.....	94	Mine Inspectors Institute of America	
Coal Producers' Committee issues appeal for extension of Bituminous Coal Conservation Act, Apr.....	108	Election of officers, July.....	78
Guffey-Vinson Act extension is favored by the bituminous industry, Feb.....	49	Report of Bluefield, W. Va. meeting, July.....	*74
Guffey-Vinson Act is working smoothly, Jan.....	77		
Guffey-Vinson Act—move to extend, Feb.....	109	Mining Methods	
How operations will be conducted under federal inspection law. J. J. Forbes, Dec.....	64	Anthracite progresses in mining and preparation in 1940, Feb.....	*71
Inspection bill approved by Senate: N.C.A. protests, Apr.....	105	Bituminous mines show improved practices in 1940, Feb.....	*62
Mine inspection bill becomes a law, June.....	104	Conveyor crews average nearly 16 tons per man at Clinton mine. W. B. Bannister, Nov.....	*57
New Ohio mine inspection law, June.....	104	Cutting through rock fault done with special aids, Feb.....	104
Ohio mine safety law goes into effect, Oct.....	153	Eastern Ohio No. 8 field mobile loader operation, Oct.....	*60
Pennsylvania output control bill signed by governor, Aug.....	90	Eastern Ohio No. 8 field shaker-conveyor mining, Oct.....	*65
What the new federal mine inspection law means to coal mining. R. R. Sayers, Dec.....	63	Face preparation in Eastern Ohio No. 8 field, Oct.....	*72
		How block pillars in Pittsburgh District are drawn clean by machines, Feb.....	*94
Lignite		Kanawha mine hand loads onto conveyors. R. W. Tompkins, Mar.....	*56
Lethbridge lignite beds narrow; coal cleaned by spirals. R. D. Hall, Mar.....	*65	Loader and shuttle cars produce 13 tons per man from pillars, Industrial mine. I. A. Given, Aug.....	*51
Production in 1939, Apr.....	134	Loading machines mine selectively at Sayreton, Ala. I. A. Given, Mar.....	*39
Texas lignite mine develops method of briquetting, Nov.....	*51	One loader and one shuttle car equals fifteen tons per miner at Brophy mine, July.....	*56
Texas lignite strip mine averages 19 tons per man-day. Charles Lambur, Jr., Mar.....	*60		
Loading machines. See Mechanization			
Lowther, Thomas S. Mining Institute			
Studies altimeters, priorities and defenses, Dec.....	131		
Lubrication			
Cutting machine lubricated through hole in shaft, May.....	*69		
Greasing loaders at the Kings mine. Guiney & Given, Mar.....	*51		

Plan to mine coal in Ohio River bottom, Apr.	112
Scissors serve loading machines in thin coal at Bergoo mine. J. H. Edwards, May.	*52
Shuttle cars and bigger loaders increase tonnage at Monarch mine. Short & Bottomley, May.	*39
Thin-seam Oklahoma mine increases output with modern equipment. Gene Taylor, Sept.	*37
Two hundred tons with fourteen men using shuttle cars made from dump trucks. I. A. Given, Sept.	*40
Mining Society of Nova Scotia	
Election of Council, Aug.	74
Election of president, Sept.	*80
Report of annual meeting at Pictou, N. S., Aug.	72

N

National Coal Association	
Regional meetings consider promotion plan, Jan.	80
Secretary attacks mine inspection bill, Mar.	90
National Safety Congress	
Mine Section elects officers, Nov.	93
Mine Section meeting, Nov.	*89
Natural Gas	
Coal and allied interests attack natural gas lines as prejudicial to defense program, Jan.	92
Control of natural gas, May (e).	33
Production is equal to consumption of natural gas in Appalachian fields, Aug.	80
New England Conference on Anthracite Utilization	
Boston meeting, July.	94

P

Pittsburgh Coal Mining Institute	
Meeting, Nov.	*86
Pond Creek-Tug River Mining Institute	
Election of officers, Apr.	*133
Power Generation	
Boiler-water treatment with mixing plant, July.	*65
Hocking district mine modernizes with twin-engine power. J. H. Edwards, Aug.	*43
Modernizing power plant of Davis Coal & Coke. H. G. Burrill, Sept.	*55
Power supply and maintenance practices continue to improve, Feb.	*77
Preparation	
Anthracite progresses in mining and preparation in 1940, Feb.	*71
Antifreeze treatment discussed by Illinois Coal Preparation Engineers & Chemists, Dec.	*134
Arkansas cooperative washery. Charles Lambur, Jr., Aug.	*41
Arkansas preparation plant dedicated to St. Louis, Feb.	122
Bituminous preparation facilities show further gains in 1940, Feb.	*81
Canadian strip mine stores coal for winter market. R. D. Hall, Jan.	*60
Centrifugal dryer recovers 10-mesh carbon from slurry. J. H. Edwards, Nov.	*47
Cleaning costs discussed at A.M.C., June Consolidation Coal Co. No. 32 plant includes washing, stoker, and blending facilities. I. A. Given, Dec.	*45
Crushing in coal preparation discussed by Illinois Engineers, Oct.	156
Dust collector pulls coal dust into tube and sprays it with water, Jan.	*62
Dustproofing coal with oil requires right choice, Aug.	62
Hard and soft coal preparation (A.I.M.E. meeting), Mar.	82
Iowa strip mine meets competition with new preparation plant, Jan.	*50
Lignite coal cleaned by spirals at Lethbridge, Alta. R. D. Hall, Mar.	*65
Loader-conveyor slope delivers to washer at North Diamond. J. H. Edwards, July.	*40
Modernization of preparation plant at Big Bend No. 1, July.	*50
New preparation facilities, Jan. 94, Feb. 113, Mar. 96, Apr. 112, May 95, June 111, July 97, Aug. 94, Sept. 88, Oct. 148, Nov. 88, Dec.	130
Oleic acid might help to drain fine coal, Jan. (e).	28
Sampling every car (Illinois Mining Institute meeting), Dec.	113
Scalping section on shakers facilitates rock removal, Oct.	*130
Screens for coal—important factors to be considered (Rocky Mt. Inst.), Aug.	70
Slackline cableway excavator to clean out ponds and dispose of slurry, Nov.	*70
Standards for Dustiness of Coal and Coke favored by A.S.T.M., Apr.	132
Surface preparation in Eastern Ohio No. 8 field, Oct.	*117
Surface preparation is aided by mobile loaders, Apr.	61
Truck and rail loading efficiency in preparation plant at Washington mine. I. A. Given, May.	*61

Utah coal processing reported feasible, Feb.	116
Washer water is neutralized by lime at lake pump, July.	65
Preston County Coal Mining Institute	
Present quiz program, Oct.	173
Priorities	
Anthracite Industries Laboratory receives rating, Nov.	76
Coordinator for mines named, Nov.	80
Plans for speeding deliveries of maintenance parts and repair materials, Oct.	142
Rating accorded repair parts—application form, Sept.	83
Status given repair and maintenance equipment, Aug. (e) 36, Aug.	86

R

"Radio" sets provide mine communication via trolley at Cliff mine. I. A. Given, Jan.	*52
Refuse Disposal	
Filter agent can be made from refuse, Apr.	110
New Summerlee refuse-disposal tramway. J. E. Howard, Dec.	*59
One-man dumping installation handles Little Betty refuse, Jan.	*72
Tar from burning refuse pile brings pollution problem to Eastern Coal, Apr.	130
Regulation	
Anthracite price ceiling is set, then revoked by Henderson, Oct.	143
Bituminous Coal Division gives changes in weighted average costs (table), May.	78
Bituminous Coal Division moves to abolish abuses, Dec.	120
Bituminous Coal Division orders maximum price hearings resumed, Nov.	73
Bituminous Coal Division refuses relaxing of agency regulations, Aug.	88
Bituminous Coal Division reports that Guffey-Vinson Act is working smoothly, Jan.	77
Bituminous Coal Division to hold hearing on maximum coal prices, Sept.	71
Bituminous price ceiling hearing under way, Oct.	158
Code violations considered by Bituminous Coal Division, Oct.	158
15th Bituminous District meeting discusses new coal code of prices, Jan.	78
Gould, G. B. named as advisory consultant on coal prices in Fuel Section, Sept.	*79
Gould to advise on coal prices, Aug.	49
Guffey-Vinson Act extension is favored by the bituminous industry, Feb.	89
Guffey-Vinson Act—move to extend, Feb.	109
Research	
Battelle Memorial Inst. again expands, Aug.	89
Coal research in progress or completed in 1940 or planned for 1941, Feb.	*86
Leaders in coal research convene at Battelle, May.	*84
Rising interest in research. C. E. Williams, Feb.	*75
Stove makers support research to improve coal heating, Sept.	88
University of Maryland offers fellowships for research, June.	102
Richart, F. W. to substitute for Lambur, Aug.	*89
Rocky Mountain Coal Mining Institute	
Election of officers, Aug.	70
Report of Denver meeting, Aug.	*68
Roebing's Sons Co., J. A. celebrates 100th anniversary, Oct.	*149
Roof Control	
Avella, Pa. mine controls draw slate by systematic timbering and conveyor loading. Claude Ferguson, Mar.	*47
Damp mine roof rock kept from spalling by spraying with coal tar paint. G. M. Brown, May.	64
Discarded shaker chutes keep old underpass intact, Apr.	*100
Gunitite used in winter to support the roof (A.I.M.E. meeting), Mar.	82
How to apply gunitite to roof. C. W. Jeffers, May.	65
How to bar down loose top rock in comparative safety, Apr.	94
How to preserve roof discussed by A.I.M.E. and A.S.M.E., Dec.	102
Painting and safety of roofs discussed at Pittsburgh meet, May.	80
Pillow block with cutout helps timberman, July.	*68
Proper roof support is vital to loading efficiency, Apr.	63
Shawmut Mining Company issues instructions for timberman, June.	79
Timber caps strengthened with old wire rope, Feb.	*102
Timber charts to indicate to foreman size of timber needed for safety, Mar.	69
Warning post shows roof movement, Dec.	*94

S

Accident prevention signs to be standardized, June.	116
--	-----

Advisory group formulates inspection policies; Forbes named chief inspector, Oct.	*149
Air blasts from falls of roof are like typhoon gales, Nov.	62
Air Hygiene Foundation elects officers, Mar.	100
Anything that takes oxygen makes irrespirable air, June.	79
Bar stock split to make cutter-chain lock, Feb.	*100
Bell mounted on cage top warns of approach, Aug.	*64
Beware all electrical currents for almost none are safe, July.	61
Big-Sandy-Elkhorn Coal Mining Institute and Pond Creek-Tug River Mining Institute safety meet, Nov.	*78
Blackdamp is changing as time progresses, July.	60
Blackdamp usually lighter than ordinary air; ways that will keep mine air fresh, Aug.	57
Burlap suited for brattice work by treatment with chemical, Jan.	70
Carbon dioxide used to extinguish small mine fires at Pittsburgh Coal Co. Rose & Skinner, Mar.	*59
Cars held on grades by spring dog, Mar.	*78
Cat eyes on locomotive step for safety, Aug.	*64
Children of Koppers miners to get clinic service, June.	117
Clamping rope inside drum reduces breakage, Dec.	*99
Coal Mining Institute discusses safety work, Jan.	101
Coal thickness compared with accidents underground (A.I.M.E. meeting), Mar.	84
Converting mine excavations into safety chambers. D. J. Keenan, Mar.	*68
Cutter chain safety device dropped by clutch lever, Nov.	*68
Dust allaying discussed at National Safety Congress, Nov.	*89
Dust collector pulls coal dust into tube and sprays it with water, Jan.	*62
Dust danger can be decreased to a minimum. Walter Hornsby, Jan.	64
Dust in mine work discussed by Coal Mining Institute, Jan.	99
Dust problem solutions by an anthracite mine. A. C. Peterson, Nov.	63
Eastern Ohio No. 8 field, Oct.	*101
Electric switch device to prevent burns, Feb.	*98
Fire hazard sharply reduced by rock-dust stemming, Feb.	102
Fire in coal cutting and gob fires reported on by British Research Board, Sept.	74
Fluid brakes control monitors and supply trips at Bergoo, Aug.	*54
Gases in mines studied by Southern Illinois Mining Electric Group, Dec.	118
Glass guard grinding wheels, July.	*70
Greek-letter mine-safety society organized, Apr.	*130
Hazards incidental to mechanical loading discussed by Inspectors at Bluefield, July.	74
Holmes Association awards bestowed for rescues, May.	88
Homes certificate for accident reduction awarded to Pittsburgh Coal Co., June.	*101
How intake air is filled with methane by falls of barometer or of rock, Oct.	125
How operations will be conducted under federal inspection law. J. J. Forbes, Dec.	64
How to bar down loose top rock in comparative safety, Apr.	94
How to inculcate safety to mine workers at their working places. W. D. Walker, May.	65
How to put drive into first aid and mine-rescue training. D. J. Keenan, June.	78
Just what is firedamp?—an atmosphere or methane? Mar.	69
Kentucky Mining Institute holds safety meet, Nov.	*84
Light warning sign to clamp on rail, Dec.	*96
Major causes of coal-mine injuries and preventive measures, Dec.	76
Mechanical loading opens door to improved safety records. J. J. Forbes, W. J. Jenkins, J. D. A. Morrow, Apr.	*83
Mechanization hazards combatted. B. J. F. Conrad, Nov.	62
Mount Hope, W. Va. safety station approved, Apr.	137
Nelms mine disaster is reported by Bureau of Mines, Feb.	117
1940 shows safety record hard hit in soft coal; hard-coal rate down. R. R. Sayers, Feb.	*69
Ohio mine safety law goes into effect, Oct.	153
Pennsylvania safety meet, Oct.	*154
Plenty of air employed in fighting fires, Mar.	76
Points which might be considered in promoting safety in mines, Dec.	66
Proper roof support is vital to loading efficiency, Apr.	63
Railing set in concrete guards fire hydrant, Aug.	*61
Receptacles in which shotfired and miners can carry explosives into coal mines, Oct.	124
Rock dust at repair jobs reduces spark menace, Dec.	94
Rock dusting, roof support, haulage reported on by British Research Board, Sept.	74

Rock-dusting will be in vain if coal dust is ill covered, Nov.	63
Safety and first aid. Benjamin Lohr, June	120
Safety demands reorganization and research—A.M.C., June	42
Secretary of N.C.A. deplores federal mine inspection bill, Mar.	90
Self-rescuer case has holder, Sept.	*68
Sentinels of Safety trophy awarded to Union Pacific Coal Co., Nov.	97
Shawmut Mining Company issues instructions for timberman, June	79
Sign for safety made from paint-can lid, Feb.	*104
Training of mine workers promotes safety and efficiency. O. G. Van Campen, Dec.	*52
Traveling safely in shafts, slopes and planes. Thomas Allen, Aug.	56
U. S. Bureau of Mines Safety Board decisions, Dec.	70
Utah occupational disease study brings suggested controls, Mar.	110
Ventilation improvements assure safety to life and investment. J. H. Dickerson, Mar.	*44
Ways of leaving a mine during a mine fire, Oct.	*127
West Kentucky first-aid meet, Jan.	*86
West Virginia court upholds safety shutdown, Mar.	106
Western Pennsylvania Regional Safety meet, May	80
What mixture of firedamp and air will cause maximum violence in a mine explosion, Sept.	60
What the new federal mine inspection law means to coal mining. R. R. Sayers, Dec.	63

Sales Agencies

Indiana Coals, Inc. provisionally approved as marketing agency, July	97
Relaxing of agency regulations refused by Coal Division, Aug.	88
Tri-County Fuel Co. absorbs two companies, Sept.	91

Smoke Prevention

Birmingham tries experiments to eliminate smoke, Mar.	107
Chemists meet at St. Louis seeking ways to cleanse air smoke and dust, May	84
Illinois Mining Institute discussed smoke control, July	82
Louisville names committee to study smoke evil, Mar.	103
Pittsburgh Smoke Commission holds open hearing June	110
Smoke abatement manual published, Oct.	162
Smokeless combustion of high-volatile coal is Middle West problem, Apr.	137
Southern Illinois Coals demonstrates that coal can be burned smokelessly, Feb.	*123
Western Pennsylvania Coal Operators' Assn. prepares smoke report, June (e)	36
Southern Appalachian Industrial Exhibition, Oct.	150

Southern Illinois Mining Electric Group

Expense-cutting maintenance ideas expounded at West Frankfort meeting, Nov.	74
Inspects Grand Tower power plant, July	*95
Meeting in West Frankfort, Ill., Dec.	118
Report of meeting, Jan. 92, Feb. 110, Apr.	127

Stokers

Anthracite Industries' draft throttle for domestic furnace, June	*76
Automatic stoker installation for home, Nov.	*43
Chicago opens permanent display of stokers, Jan.	*84
Link-Belt stokers to be sold by Dickson Coal Co., June	117
Massachusetts Dept. of Education offers stoker course, Jan.	98
1940 statistics for coal and stokers, Feb.	*43
Sales of domestic coal stokers vs. oil burners by months. Jan. 78, Feb. 110, Mar. 86, Apr. 106, May 80, June 90, July 85, Aug. 72, Sept. 74, Oct. 142, Nov. 73, Dec.	104

Stokers Manufacturers Association

White Sulphur Springs meeting, July	88
-------------------------------------	----

Stripping

American Mining Congress discussed stripping, June	50
Big Bend No. 1 jumps output with preparation revisions and electric dragline, July	*50
Bituminous strippers install shovels, draglines and large haulage units in 1940, Feb.	*54
Bone on top of coal seam removed by scarifier, Oct.	*129
Canadian strip mine stores undisturbed coal for winter market. R. D. Hall, Jan.	*60
Eastern Ohio No. 8 field electric operations, Oct.	*103
Eastern Ohio No. 8 field small-unit stripping, Oct.	*109
Illinois mine commission members appointed, Oct.	177
Iowa strip mine meets competition with new preparation plant, Jan.	*50
Kansas strip mine modernization. Charles Lambur, Jr., Nov.	*52

Missouri mine works, coal in benches and leaves divider rock in pit, Jan.	*43
Oklahoma strip mine develops panning machine to raise lump yield. Charles Lambur, Jr., May	*43
Robin Hood No. 3 strip mine recovers 34-in coal seam, Aug.	*39
Shovel-dipper electric heating units cut winter-time losses. J. W. Bullington, Sept.	*53
Strip reclamation in Eastern Ohio No. 8 field, Oct.	*114
Stripping is the most highly mechanized of all coal-producing methods, Apr.	64
Texas lignite strip mine averages 19 tons per man-day. Charles Lambur, Jr., Mar.	*60
Time-study survey highspots value of effective coordination, Apr.	57

Supplies

Castings stored by groups in special racks, Nov.	*67
Eastern Ohio No. 8 field, Oct.	*95
Grab unloads heavy timber, Feb.	*102

T

Tennessee Valley Authority

Morgan loses job battle, Jan. 104, Apr.	122
---	-----

Transportation

Accident frequency rate for haulage is 220; better car design would lower rate. C. L. Lutton, Aug.	56
Accurate records vital to mechanical mining efficiency. A. G. Green, Aug.	*45
Automatic man-trip drag held up by rope, Apr.	*100
Automobile with disk wheels to use on track, July	*68
Bell mounted on cage top warns of approach, Aug.	*64
Belt vs. mine-car transportation (table) discussed at American Mining Congress, June	40
Big cars and transfer hopper at Kings mine increase loader output. I. A. Given, May	*47
Big mine cars aid loaders, cut costs at Pittsburgh Coal. V. D. Hanson, July	*47
Bumper plates reinforced by face plates, Oct.	*130
Cars dumped automatically without tipping, Mar.	*76
Cars held on grades by spring dog, Mar.	78
Charging equipment installed on battery locomotives, Apr.	*100
Drill truck moved about by cutting machine, July	*70
Eastern Ohio No. 8 field, Oct.	77
Fluid brakes control monitors and supply trips at Bergoo, Aug.	*54
Hand-powered scooter, Dec.	*92
Haulage-road cleaner made from pit-car loader, Feb.	*98
High-capacity track-mounted loading machines at Little Betty. I. A. Given, July	*37
How to apply gunite to roof. C. W. Jeffers, May	65
Large shuttle cars running on rails for safety and economy. D. W. Jones, Sept.	61
Loader-conveyor slope delivers to washer at North Diamond. J. H. Edwards, July	*40
Locomotive battery boxes strengthened by braces, Nov.	*67
Locomotive controller guard drops over handle, July	*68
Locomotive remodeled to replace resistors, Sept.	*66
Locomotive sand dryer, Mar. 73, July	66
Locomotives turned and rebuilt for safety and economy. Kings mine, May	*69
Mounting trolley hangers on a pipe suspension, July	*68
No loading equipment can be more efficient than the transportation system which serves it, Apr.	60
Ohio truck mine electrifies and boosts sales by advertising. J. H. Edwards, Mar.	*62
One-man operation facilitated by proper dumping set-up, Jan.	*70
Rail straightener, May	*70
Reflector buttons in wood make trip markers, Oct.	*136
Rearranged more efficient by raising outside rails, Feb.	*106
Rope haulage simplified by roof brackets, Nov.	*68
Rope wear can be reduced by proper rollers, Jan.	*69
Rubber-tired haulage installations gain in thin-coal mines in 1940, Feb.	*67
Safe travel in shifts, slopes and planes. Thomas Allen, Aug.	56
Shuttle cars, rubber-tired, and bigger loaders increase tonnage at Monarch mine. Shott & Bottomley, May	*39
Slackline cableway excavator to clean out ponds and dispose of slurry, Nov.	*70
Standard trolley wires improve efficiency, Sept.	*66
Steam-hoist operation checked by special recording meter, Mar.	*74
Sticky coal freed from cars by flexing of apron, Feb.	*106
Switch points protected by metal guard, Mar.	*78
Track anchored by rods in holes in bottom, Apr.	*99

Track extended at working face by sliding section, Sept.	*65
Track items fabricated by welding methods, Sept.	*65
Track-shifting attachment, May	*74
Trolley-pole gouge completes pole quickly, July	*66
Truck and rail loading efficiency in preparation plant at Washington mine. I. A. Given, May	*61
Two hundred tons with fourteen men using shuttle cars made from dump trucks. I. A. Given, Sept.	*40
V-belt cable-reel drive on locomotive cuts maintenance, Oct.	*138

U

United Mine Workers

Alabama strike settled on basis of mediation board findings, Nov.	73
Appalachian wage contract signed by Southern operators, July 71, Aug.	67
Captive mine strike called off by Lewis, Nov.	98
Captive mines and the strike, Nov. (e)	42
Labor members of coal boards named, Aug.	93
Pennsylvania anthracite dues revolt ended, Nov.	76
Tri-County Operators sign contract, Aug.	90

Utilization

American Coal Foundation offers cooperative plan for promoting solid-fuel uses, Oct.	141
Anthracite Advisory Board to promote utilization, May	93
Anthracite ash is a marvelous land-betterment agent, Jan. (e)	38
Experiments with breaker waste for building materials, July	99
Filter agent can be made from refuse, Apr.	110
The humble stove, Sept. (e)	36
New England Conference on Anthracite Utilization, July	94
Semet-Solvay byproduct ovens being rehabilitated, Feb.	110

V

Ventilation

Air directions are too frequently reversed where auxiliary fans are ill-placed, Jan.	65
Anything that takes oxygen makes irrespirable air, June	79
Better airways and fans assure safety to life and investment. J. H. Dickerson, Mar.	*44
Blackdamp is changing as time progresses, July	60
Blackdamp usually lighter than ordinary air; ways that will keep mine air fresh, Aug.	57
Burlap suited for brattice work by treatment with chemical, Jan.	70
Correct way of using small blower fans for ventilating face (Mine Inspectors' Institute), July	*74
Dust problem solutions by an anthracite mine. A. C. Peterson, Nov.	63
Eastern Ohio No. 8 field, Oct.	*81
Forced ventilation, Feb. (e)	42
Getting full value from air costs by proper ventilating system. J. H. Dickerson, May	*44
How intake air is filled with methane by falls of barometer or of rock, Oct.	125
How to use auxiliary fans in highly mechanized mines. J. H. Dickerson, Apr.	*44
Keeping air on the move at Princeton's mines, Apr.	*95
Loading efficiency needs good ventilation, April	63
Old stoppings need to be the tightest yet usually are in worst condition, Feb.	95
Question on air moved and power needed, Oct.	124
Savings inherent in better mine ventilation (Nova Scotia meeting), Aug.	*72
What mixture of firedamp and air will cause maximum violence in a mine explosion, Sept.	60

W

War

Coal men aid British relief, Sept.	89
Water treatment plant for drinking supply, W. Va. J. E. Howard, Sept.	*50

Welding

Broken stud bolts removed by welding on pipe, Feb.	*100
Good design reduced chances of cracked welds, Aug.	*64
Joint preparation for welding improved by gouging, Dec.	*98
Low mounting for arc-welder made with stub axles, Jan.	*74
Machining precedes welding at Piney Fork shop, Oct.	*132

Minimum physical properties of welds, Apr.	127
Resistor joints welded to stop heating, July.	68
Peening of welds bring better results, Oct.	*134
Resistance welding lessens shaking-pan repairs at Hudson Coal, Jan.	*55
Rings and teeth welded on in reclaiming gears, Apr.	*98
Stud-removal by arc-welding, Sept.	*65
Teeth shaped hot to repair gear, May.	74

Three rails welded together make steel timber legs, Apr.	*102
Track items fabricated by welding methods, Sept.	*65
Worn crusher-roll teeth rebuilt by arc welding, Feb.	*98
West Virginia Dept. of Mines—seven new inspectors named, Sept.	90
West Virginia Coal Mining Institute	
Election of officers, Dec.	114

Report of Huntington meeting, July.	*92
Report of Morgantown meeting, Dec.	*114
Western Kentucky Mining Institute	
Madisonville meeting, Mar.	*106
Western Pennsylvania Annual Regional Safety Engineering Conference, May.	80
Wyoming Pocahontas Coal Mining Institute is organized, Jan.	94

MINE AND COMPANY INDEX

A	
Acadia Coal Co.	
Increases wages, Aug.	91
Alabama By-Products Corporation	
Bradford commissary burns, Feb.	129
To add 25 byproduct ovens, Jan.	82
Allegheny Pittsburgh Coal Co.	
How block pillars are drawn clean by machines, Feb.	*94
Allegheny River Mining Co.	
Discarded pump valves utilized as electrical insulators, Jan.	74
Screen plates used for racks over oil spill cans, Mar.	76
Tapered top on loading machine, Dec.	*92
Atlas Coal & Dredge Co.	
Plan approved to mine coal in Ohio River bottom, Apr.	112
Ayrshire Patoka Collieries Corporation	
Boom maintenance, M. A. Walsh, Nov.	*61
First car of Chinook coal shipped to Indianapolis, Feb.	*127
Ayrshire-Patoka Coal Co.	
Tipple destroyed by fire, June.	118

B	
Bell & Zoller Coal & Mining Co.	
Battery boxes strengthened by braces and plates, Nov.	67
Drill truck moved about by cutting machine, July.	*70
Mixing plant facilitates boiler-water treatment, July.	*65
Power transmission line saves on copper, Sept.	*66
Truck with loader head rebuilt, Dec.	*96
Ben-Hur Coal Co.	
Modern equipment gives new life to thin-seam Blackstone mine. Gene Taylor, Sept.	*37
Bicknell Coal Co.	
Preliminary report on explosion, July.	96
Big Bend Collieries, Inc.	
Output jumped by modern electric dragline and preparation revisions at Big Bend No. 1, July.	*50
Binkley Mining Co.	
Split seam mined in 2-ft. and 8-in. benches and divider left in pit at Missouri strip, Jan.	*43
Black Gold Coal Co. formed, Oct.	176
Black Hawk Coal Co.	
Has new tipple, Dec.	135
Tipple and preparation plant burns, Mar.	90
Blue Diamond Coal Co.	
To operate Virginia Iron, Coal & Coke coal mines, July.	97
Brophy Coal Co.	
One loader and one shuttle car equals fifteen tons per miner, July.	*56
Buckhannon River Coal Co.	
Coke ovens refired, Mar.	110
Butler Consolidated Coal Co.	
How to inculcate safety to mine workers at their working places. W. D. Walker, May.	65
Reorganization of the company, Sept.	86

C	
Cambria Fuel Co.	
Bolt and hasp make lock for welded bit box, May.	*74
Cutting machine lubricated through hole in shaft, May.	*69
Safety device for electric switch designed to prevent burns, Feb.	*98
Somerset County operation is planned, Oct.	177
Cameo Coal Mining Co. incorporated, Dec.	130
Canadian Collieries, Ltd.	
Buys plant, Oct.	148
Coal field on Vancouver Is. to be opened, Aug.	90
Carolina Coal Co.	
Mine to resume production under Southern Pines interests, Aug.	90
Carrolltown Coal Co.	
Builds new plant, Apr.	122
Cedar Grove Collieries, Inc.	
Pioneer Kanawha mine, revitalized, hand loads onto conveyors. R. W. Tompkins, Mar.	*56
Trolley limits barge drift at tippie on Kanawha, Apr.	*102
Central Illinois Coal Co.	
Mine "A" lease sold, Oct.	176
Central States Collieries, Inc.	
Developing second strip mine, Nov.	94
Chafin, Jones & Heatherman	
Chafin sells mining interest, Oct.	176
Chicago, Wilmington & Franklin Coal Co.	
New Orient mine places cat eyes on locomotive step for safety, Aug.	*64
Presents new stoker size, Jan.	82
Clayton Coal Co.	
Conveyors with non-explosive breaking feature Washington mine, Colorado. I. A. Given, May.	*59

Truck and rail loading efficiency in preparation plant at Washington mine. I. A. Given, May.	*61
Clinton Block Coal Co.	
Conveyor crews average nearly 16 tons per man. W. B. Bannister, Nov.	*57
Clover Darby Coal Co.	
Plant opening, Aug.	89
Colket Water Level Tunnel	
Contractor reopens drift, Aug.	90
Colorado Fuel & Iron Corporation	
Smoking mandrel with torch frees it from habbit, Apr.	100
Consolidated Coal Co.	
Increases power production, Oct.	177
Consolidation Coal Co.	
Awarded safety plaque at Big Sandy Elkhorn Coal Mining Institute, Apr.	*112
No. 32 plant includes washing, stoker and blending facilities, Dec.	*45
Schedule of maintenance followed at Owings plant, Dec.	*92
Take-up adjustments in conveyor reduced, Dec.	*94
Consumers Lignite Co.	
Develops successful method of briquetting, Nov.	*51
Continental Coal Co.	
Brook mine passes to new owner, Mar.	88
Properties on sale, Feb.	129

D	
Davis Coal & Coke Co.	
Modernizing power plant to meet changing loads and shorter hours. H. G. Burrell, Sept.	*55
Dawson Coal Co.	
Retrailer made more efficient by raising outside rails, Feb.	*106
DeBardeleben Coal Corporation	
Coke ovens to be refired, Feb.	125
Sipsey mine to be rehabilitated and reopened, Nov.	76
Domestic Coal Co.	
Average output at Axial, Colo. is 200 tons with 14 men. I. A. Given, Sept.	*40
Duncan, Leo, Mining Co.	
Acquires coal tracts, Dec.	117
Duvin Coal Co.	
Mining property sold, Dec.	117
Dye Coal Co.	
Bone on top of coal seam removed by scarifier, Oct.	*129
